PHILHEALTH SYSTEMS OPTIMIZATION

Please be advised that the Information Technology Management Department (ITMD) is undergoing system optimization and/or system updates (application systems, servers, and databases) to improve performance and efficiency; and address the system slowdown and intermittent connection.

Our Information Technology Management Department is working to successfully finish the system optimization activity within four (4) months or earlier. The systems will still be made available during the activity. Thank you for your utmost understanding and patience for the inconvenience that this may have caused you.

(Sgd.) JOVITA V. ARAGONA

Senior Vice President & Chief Information Officer
