3. Conduct of Brown Bag Sessions during Regular Board Meetings. The PhilHealth Board, by virtue of PhilHealth Board Resolution (PBR) No. 2357, s. 2018, agreed to use the brown bag concept in continuing education of Board Members as well as Management Officials whereby subject matter experts from various fields may be invited to Board Meetings to talk at a limited time on exciting issues and trends affecting the health industry in general and PhilHealth operations in particular. The use of brown bag sessions is an innovative manner of capacity building without incurring too much cost to the Corporation and taking full advantage of the presence of Board Members and PhilHealth Officials during Board Meetings.

4. Continuing Education and Training Program (CETP) of Board Members by virtue of PBR No. 2312, s. 2017 which was approved in order to enhance Board Members' capacity in terms of training, competence, education, experience and integrity so that they can effectively perform their legally mandated functions. This also responds to the Fit and Proper Rule under GCG MC No. 2012-05. Under this Program, the Corporation ensures a yearly allocation in its Corporate Operating Budget (COB) to cover the cost of training of Board Members which would be demand-driven, subject to equity criteria and monitoring. For this year, Usec. Wilford Will L. Wong of the DBM attended the 8th Executive Certificate in Advanced Financial Statement Analysis Program last November 24 – December 6, 2022. His attendance is seen to further capacitate the Board especially since he is a part of the Board's Audit Committee where the Corporation's Financial Statement is discussed, scrutinized and approved for endorsement to the Board en banc. Other current efforts on the Board's CETP also includes webinars and online seminars and trainings in partnership with academic societies as well as global social health insurance advocates.
