Prudential Bank No Longer An Accredited Collecting Bank

Starting this year, the Prudential Bank, including its 182 branches nationwide, will no longer be collecting premium payments in behalf of PhilHealth.

This development came about when Prudential Bank officially merged with the Bank of Philippine Islands (BPI) on December 29, 2005.

We encourage our members, as well as the employers from the public and private sectors to please proceed to any of the other PhilHealth-accredited collecting banks and agents nationwide for your premium remittances.
