PNDF 6th Edition Is Sole Basis for Reimbursement of Drugs and Medicines

All PhilHealth-accredited institutional and professional health care providers are advised that reimbursement for drugs and medicines of claims with discharge dates starting January 1, 2006 will be based solely on the 6th Edition of the Philippine National Drug Formulary (PNDF) Vol. 1, No. 1. This development is in line with PhilHealth Circular 19, s-2005 dated August 22, 2005.

While the Department of Health is in the process of printing the said reference, all interested parties may download the complete listing of the PNDP drugs from the following websites:
