Beware of Fake PhilHealth Claim Checks

The public is hereby warned on the proliferation of fake PhilHealth checks being encashed at commercial establishments nationwide.

Recent reports from Region VII have shown that several unscrupulous persons have encashed checks worth P65K at a commercial establishment in Dumaguete City. The checks later turned out to be fake negotiable instruments.

We call on proprietors of business establishments to exercise extreme caution when allowing similar transactions. Should incidents like these arise, please immediately report the matter to the nearest PhilHealth Regional or Service Office or to our Fact-Finding and Administrative Investigation Department at 637-9999 local 1905.
