No. 05-01-2009

SSS AFIS and CPS as interface between PhilHealth UMID registration and service delivery subsystems

In view of the Memorandum of Understanding between the Philippine Health Insurance Corporation (PhilHealth) and Social Security System (SSS) wherein SSS will produce the ID Cards for both PhilHealth and SSS, interested proponents to the PhilHealth UMID System are advised to consider the SSS Automated Fingerprint Identification System (AFIS) and Card Production System (CPS) as interface between PhilHealth UMID registration and service delivery subsystems.

The official canvass to determine the PhilHealth Approved Budget for the Contract (ABC) will be released in June 2009.
