ADVISORY

No. 2022 - 0023

Coverage of Hemodialysis in Excess of 90 Sessions

The PhilHealth Board of Directors has recently approved the coverage of hemodialysis sessions from a maximum of 90 sessions to 144 sessions which can be availed of until December 31, 2022.

PhilHealth will immediately issue the necessary guidelines through a Circular. For the meantime, it is directing all its regional offices and concerned healthcare facilities to continue honoring all availments beyond the 90-session limit as duly prescribed by a PhilHealth accredited physician.

For the information and compliance of all concerned.
