## Ongoing System Enhancement in Konsulta Registration Masterlist Module

Please be advised that there is an ongoing system enhancement to resolve the concern in generating the Konsulta Registration Masterlist thru your PhilHealth-certified Konsulta Software developed by third-party IT Service Provider.

Relative to this, the Konsulta Package Provider (KPP) may proceed and coordinate with the nearest Local Health Insurance Office (LHIO) and request a copy of the Konsulta Registration Masterlist in PDF and/or encrypted XML file. The said masterlist shall be uploaded in their certified Konsulta software.

For your information and proper guidance.
