ADVISORY

No. 2024 - 0024

Disabling of Reconciliation Module in the HCI Portal

PhilHealth will be disabling the Reconciliation Module feature in the HCI Portal. This move aims to ensure and maintain accuracy and integrity during the conduct of the reconciliation process to be facilitated by the PhilHealth Regional Offices (PROs). The access to the feature will be resumed upon completion by the reconciliation activities. A separate Advisory will be released to inform the availability of the feature.

For your information and proper guidance.
