

Electronic Philippine National Formulary Essential Medicines List (ePNF) as of September 19, 2025

Please be informed that the electronic Philippine National Formulary (PNF) Essential Medicines List (EML) can be accessed through this link:

<https://pnf.doh.gov.ph>

Prepared by the Department of Health, the PNF includes medicines that satisfy the priority health care needs of the population and are selected based on evidence of their efficacy, safety, and comparative cost effectiveness. (DOH AO 2016-0034).

Below are the added medicines in the PNF that was recommended by Health Technology Assessment Committee (HTAC) and approved by Department of Health.

The ePNF is being used as reference by the Philippine Health Insurance Corporation (PhilHealth) in financing quality health care services being provided to all Filipinos as mandated by RA 7875, as amended.

Health care providers should ensure that PNF drugs are always available for their usual case-mix, which will then be used as a basis / reference for claims reimbursements and performance monitoring.

For the guidance of all concerned.

(Sgd.) EDWIN M. MERCADO, MD, MHA, MMSc

President and Chief Executive Officer
