

Termination of My PhilHealth Portal (MPP) for Selection of Primary Care (PC) Clinic

PhilHealth reminds all accredited YAKAP Providers and PC Clinics of the upcoming changes in the selection/assignment process for YAKAP beneficiaries.

Key Changes and Guidelines:

1. Termination of Access to My PhilHealth Portal (MPP)

The registration module in the MPP will no longer be accessible effective **March 1, 2026**. Consequently, PC Clinics will no longer facilitate PC Clinic Selection using MPP.

2. Alternative Selection Process for Walk-in Beneficiaries

Walk-in beneficiaries may select their PC Clinic by accessing either the eGov Super App or the PhilHealth Member Portal website in real time. PC Clinic may provide equipment or gadget like laptop or tablet to facilitate digital onboarding to YAKAP Selection.

3. Mandatory Member Verification and Liveness Check using PhilHealth Check Utility (PCU)

YAKAP Providers shall assist beneficiaries to utilize the PCU for verification of member's identity during PC Clinic selection, conduct of FPE and availment of YAKAP benefits.

4. Member Roll-over Policy for CY2026

All YAKAP beneficiaries assigned to a PC Clinic without First Patient Encounter for CY2025 shall not be renewed to their assigned PC Clinic, effective January 2026. However, they can re-select their preferred YAKAP facility through online platforms via **eGov Super App** or **PhilHealth Member Portal** or **visit the nearest PhilHealth Local Health Insurance Office (LHIO)** for CY2026.

YAKAP beneficiaries who have undergone the FPE for CY2025 shall automatically be renewed to their current PC Clinic in CY2026 unless they formally request a transfer to other YAKAP facility and undergo the biometric and liveness check using the PCU and sign the YAKAP Empanelment Slip at their next visit.

For more information, please contact the PhilHealth Action Center at (02) 8662-2588 or visit any PhilHealth Regional Office or LHIO near you.
