

Supplemental Guidelines on PhilHealth YAKAP Signage Specifications

Pursuant to the nationwide implementation of PhilHealth YAKAP (Yaman ng Kalusugan Program) as the Corporation's flagship primary care benefit program, all accredited YAKAP Providers are required to install official program signage. To ensure uniform branding and provide appropriate options for various YAKAP Provider facility types, these additional guidelines are hereby issued to complement PhilHealth Advisory No. 2025-0061:

I. SIGNAGE CLASSIFICATION

1. Standard size (Annex A: 5 ft x 2 ft)

The standard size signage shall be used for any of the following scenarios:

- YAKAP Clinics (stand-alone or inside a hospital/health facility)
- Cancer Screening Facilities (stand-alone or inside a hospital/health facility)
- GAMOT Facilities located inside a hospital/health facility
- YAKAP Providers offering combined YAKAP services (stand-alone or inside a hospital/health facility)

2. Compact size (Annex B: 18 in x 12 in)

The compact-sized signage shall be used **exclusively** for the following:

- YAKAP Clinics located inside malls, schools, offices, or mixed-use establishments
- YAKAP Providers offering combined YAKAP services inside malls, schools, offices, or mixed-use establishments
- Stand-alone GAMOT Facilities (indoor or outdoor)

II. DISPLAY AND COMPLIANCE GUIDELINES

1. Level 1-3 Hospitals with a YAKAP facility must display both the official PhilHealth signage and the YAKAP signage.
2. Stand-alone YAKAP and GAMOT facilities are required to display the YAKAP signage only.
3. All signages must be installed and displayed by **April 1, 2026**.
4. Compliance is mandatory and will be verified during regular PhilHealth monitoring and facility visits.

For complete technical layouts and high-resolution files, providers may coordinate with their respective PhilHealth Regional Offices (PROs) or Local Health Insurance Offices (LHIOs).

For your information and guidance.
