Notice Regarding Unauthorized and Fake PhilHealth Websites

The Philippine Health Insurance Corporation (PhilHealth) warns its members and the general public about the surfacing of unauthorized and fake PhilHealth websites. Several suspicious domains are mimicking the official website to solicit personal information and sensitive data.

IDENTIFIED UNAUTHORIZED PLATFORMS

PhilHealth has identified the following domains as not affiliated with the Corporation and using the corporate name without consent:

1. **philhealthportal|.|com**
2. **librengyakapmo|.|com|.|ph**

Any transaction made through these unauthorized websites will not be acknowledged by the Corporation. The public is strictly advised to access official services only through the official website: www.philhealth.gov.ph.

To identify fake and fraudulent websites, check the following:

1. **Domain Suffix:** The Official Philippine government websites must strictly end with **.gov.ph**.
2. **URL Mismatch:** Check for typosquatting or misspellings. Fake websites typically mimic official URLs by combining similar-looking characters (e.g., using "1" instead of "l").
3. **SMS Phishing:** Be cautious of links sent via SMS from unidentified or 11-digit mobile numbers.
4. **Data Solicitation:** Be wary of sites requesting sensitive personal data, bank PINs, or credit card details.
5. **Urgent Notice:** Avoid sites using headlines with urgent requests or alarming notices to pressure users into providing information.

The official social media accounts of PhilHealth are:

1. Official Website: www.philhealth.gov.ph/
2. Facebook Page
   a. Main Page: www.facebook.com/PhilHealthOfficial
   b. YAKAP: www.facebook.com/PhilHealthYAKAP
3. X (previously twitter): @teamphilhealth
4. Instagram: @team_philhealth
5. YouTube: @teamphilhealth
6. Spotify: TeamPhilHealth

To report any suspicious and fraudulent activity, please contact our 24/7 Corporate Action Center at (02) 866-225-88, or email us at actioncenter@philhealth.gov.ph.
