SUBJECT : **Re-inspection of Accredited Hospitals with deficiencies in
Regions 9 and 12**

DATE : **October 17, 2000**

There are hospitals in Regions 9 and 12 that have been given more than enough time to correct their deficiencies. Once their deficiencies are corrected they request for re-inspection but they cannot be inspected due to unstable peace and order situation in the area. In this case their letters informing about compliance/correction of their deficiencies will be honored even without an actual inspection being conducted, and their accreditation will be approved.

Monitoring will be done when the peace and order situation in their area permits safe inspection to validate their compliance. If it is found by the monitoring team that their deficiencies still exist, their accreditation will be cancelled immediately.

Please be guided accordingly.
