PHILHEALTH CIRCULAR

No. 2022-0002

TO : ALL PHILHEALTH MEMBERS, ACCREDITED HEALTH CARE INSTITUTIONS/ PROVIDERS, PHILHEALTH REGIONAL OFFICES, BRANCHES, LOCAL HEALTH INSURANCE OFFICES AND ALL OTHERS CONCERNED

SUBJECT : COVID-19 Home Isolation Benefit Package (CHIBP) (Revision 1)

I. RATIONALE

To address the COVID-19 global pandemic, the President of the Philippines, through Republic Act No. 11469, also known as Bayanihan to Heal as One Act, and Presidential Proclamation No. 929 s. 2020 declared a State of Public Health Emergency. In response, PhilHealth developed COVID-19 benefits to cover for cases requiring community isolation, testing, and hospitalization. Amidst the recent surge of COVID-19 cases in the Philippines, there is a notable rise in hospital admissions for COVID-19. The One Hospital Command of DOH reported on April 1, 2021 that 41% of hospital beds are being occupied by mild cases, which if rationalized could be used to manage COVID cases requiring higher level of care. This is in consonance with reports showing that at the peak of the surge at least 95% of beds within NCR were already occupied. Dealing with the surge situation requires better management of mild and asymptomatic COVID-19 cases and hospital resources should only be utilized for moderate, severe, and critical COVID cases.

Given the aforementioned, PhilHealth, by virtue of PhilHealth Board Resolution No. 2621 s. 2021, has developed a home isolation package that is consistent with DOH Department Memorandum No. 2020-0512 released on November 26, 2020. The COVID-19 Home Isolation Benefit Package (CHIBP) will serve as an alternative for patients who meet the social and clinical criteria for home isolation and who do not want to stay in a Community Isolation Unit (CIU) and can instead receive health support directly in their homes.

II. OBJECTIVES

The following are the objectives of this package:

- A. Support the rationalization of use of higher level facilities to focus on moderate, severe and critical COVID-19 cases;
- B. Incentivize facilities who can offer home isolation services; and
- C. Provide an alternative option for isolation of COVID-19 *positive*, mild and asymptomatic patients who meet the social and clinical criteria for home isolation.

III. SCOPE

This PhilHealth Circular shall apply to all claims for home isolation services filed by accredited PhilHealth isolation facilities, infirmaries, hospitals and Konsulta providers who have accomplished the necessary documentary requirements to provide the CHIBP.

IV. DEFINITION OF TERMS

- A. **Asymptomatic** - any patient who tested positive for RT-PCR but with no signs and symptoms of COVID-19 disease
- B. **Barangay Health Emergency Response Team (BHERT)**¹ - a team established by Department of the Interior and Local Government (DILG) MC No. 2020-023 to help implement local prevention and mitigation, preparedness and response measures for COVID-19.
- C. **Community Isolation Units (CIUs)**²- DOH certified publicly or privately-owned non-hospital facilities set-up in coordination with or by the national government or local government units to serve as quarantine facilities for COVID-19 cases, based on DOH guidelines. Examples of CIUs include LIGTAS COVID Centers and Mega LIGTAS COVID Centers.
- D. **Health Facility (HF)**³ – which may be public or private, devoted primarily to the provision of services for health promotion, prevention, diagnosis, treatment, rehabilitation and palliation of individuals suffering from illness, disease, injury, disability, or deformity, or in need of obstetrical or other medical and nursing care.
- E. **Isolation**⁴ – the separation of ill or infected persons from others to prevent the spread of infection or contamination.
- F. **Mild COVID-19**⁵ – no pneumonia or hypoxia/desaturation, acute onset of fever and cough or any three or more of the following: fever, cough, coryza, sore throat, diarrhea, anorexia/nausea/vomiting, loss of sense of smell or taste, general weakness/body malaise/fatigue, headache, myalgia.
- G. **Teleconsultation**⁶ – refers to the consultation done through telecommunications with the purpose being diagnosis or treatment of a patient, with the sites being remote from patient or physician.

V. POLICY STATEMENTS

A. Rules For Accreditation In Providing The Covid-19 Home Isolation Benefit Package (CHIBP)

1. PhilHealth-accredited Community Isolation Units (CIUs), Infirmaries, Hospitals, and Konsulta providers shall be allowed to provide the CHIBP.
2. Interested PhilHealth accredited facilities shall submit additional documentary requirements as follows:
 - a. Completely filled-out CHIBP Self-Assessment Tool (Annex A: CHIBP Self-Assessment Tool)
 - b. Letter of Intent; (Annex B: Letter of Intent)
 - c. Signed Performance Commitment as CHIBP provider (Annex C: Performance Commitment);

- d. Service Delivery Agreements (SDAs) and/or an Authorization Letter under the following conditions:
 - d.1 PhilHealth Konsulta facilities and infirmaries shall include in their submission a signed SDA with a L1 to L3 hospital (Annex D) for referral in accordance with PhilHealth policy on COVID-19 inpatient benefit or referral plan to include transportation arrangement;
 - d.2 If the PhilHealth-accredited facility intends to engage the services of a telemedicine provider, the facility shall submit a signed Certification of Service Delivery Support with the telemedicine provider (Annex E: Certification of Service Delivery Support with a qualified telemedicine provider); and,
 - d.3 For facilities with no eClaims system (e.g. Konsulta providers), they should have an agreement with another PhilHealth-accredited provider that will file, submit claims and receive payments electronically on their behalf, in a way that is consistent with existing PhilHealth guidelines and procedures. The facility shall submit an authorization letter for the use of the eClaims system of their partner provider (Annex F: Authorization Letter for the Use of eClaims System).
3. *A Health Facility (HF) previously accredited as a CHIBP provider shall indicate the CHIBP as one of its service capabilities in its Performance Commitment upon filing of application for continuous accreditation.*
4. *A currently accredited HF not previously accredited as a CHIBP provider but with intention to provide the package shall submit an application for re-accreditation without need to pay additional accreditation fee. The accreditation of the CHIBP provider shall coincide with the accreditation of the HF.*

B. Benefit Package

1. The COVID-19 Home Isolation Benefit Package (CHIBP) shall include all identified services needed to effectively manage COVID-19 confirmed asymptomatic and mild cases needing isolation, based on existing relevant clinical practice guidelines and as approved by the Corporation (Annex G: COVID-19 Home Isolation Benefit Package Services).
2. Testing and inpatient services for COVID-19 patients shall be covered by other applicable COVID-19 case rates.
3. The package shall be paid as a case rate (see Annex H: CHIBP Package Rate and Rules on Co-pay).
4. Healthcare workers identified to be part of the Home Isolation Team (Annex A: CHIBP Self-Assessment Tool) shall be provided additional incentives (i.e. hazard pay) by the accredited health care facility.

C. Availment of the Benefit Package for Home Isolation

1. All Filipinos registered under the National Health Insurance Program (NHIP) shall be eligible to avail of the program benefit. Filipinos who are not yet registered under the program shall automatically be covered, provided that they complete and submit an accomplished PhilHealth Member Registration Form (PMRF) for the issuance of the PIN upon availing of the benefit package.
2. Only beneficiaries who passed both the clinical and social criteria shall be eligible to avail of the benefit. The beneficiary shall be assessed by the BHERT using an assessment form (Annex I: Assessment Checklist of Clinical and Social Criteria for COVID-19 Home Isolation Benefit Package). The required assessment form shall be downloaded and printed by the member and submitted to the BHERT upon the latter's visit. The PhilHealth Regional Office/Local Health Insurance Office shall provide the printed forms to Local Government Units in anticipation of cases where affected members are not able to download and print the form (*Annex J: Patient Pathway and Benefit Availment Process*).

3. Eligible beneficiaries may check the PhilHealth website for the list of their preferred CHIBP provider.
4. All CHIBP claims shall be submitted electronically with complete documentary requirements (Annex K: Claims Requirement).
5. Direct filing of claims by the beneficiaries shall not be allowed.
6. All claims submitted shall be processed by PhilHealth within sixty (60) calendar days from receipt of claim provided that all requirements are submitted.
7. The filing period for claims shall be subject to prevailing PhilHealth policies and guidelines including special privileges granted during fortuitous events.
8. Claims with incomplete requirements or discrepancies shall be returned to the *health facility* (RTH) for compliance within 60 calendar days from receipt of notice.
9. The accredited facility may apply for motion for reconsideration for all denied claims based on existing PhilHealth policies.
10. In cases where the patient experiences clinical deterioration during the home isolation period, the facility shall refer the patient to a higher level facility in accordance with DOH standards and guidelines. The accredited PhilHealth facility may file for CHIBP claim for patients transferred to higher facilities due to clinical deterioration even if the period of isolation is less than ten (10) days.
11. In the event that the patient expires due to COVID-19 in the course of home isolation, the accredited facility shall be eligible to file a claim for the CHIBP.

D. Rules on Consultation, Patient Monitoring, and Teleconsultation

1. Informed consent (Annex M: Authorization and Consent to Participate in Telemedicine Consultation) must be secured from patients. The health care providers must apprise patients of their rights and inform them of the risks and limitations of telemedicine at the start of each teleconsultation.
2. The initial encounter to determine whether the patient is *clinically* eligible for home isolation shall be conducted by the physician through face-to-face consultations.
3. The CHIBP shall allow for subsequent consultations and daily monitoring (Annex N: Home Isolation Patient Monitoring Sheet) of patients for home isolation through teleconsultation, either through telephony or video consultations.
4. The provision of teleconsultations shall be done in accordance with prevailing DOH rules and guidelines in telemedicine practice (DOH-UP JMC 2020-0001) and shall be compliant with data privacy laws.

E. Monitoring and Evaluation

1. All PhilHealth-accredited facilities claiming for this benefit package shall be subject to the rules on monitoring prescribed by PhilHealth.
2. Feedback mechanisms on the package implementation shall be established to address implementation issues and concerns.
3. PhilHealth shall conduct a periodic review of this policy and specific provisions shall be revised as needed.
4. The accredited facility shall keep the patient's medical chart and monitoring sheet. These records must be made available upon the request of PhilHealth.

Annex M: Authorization and Consent to Participate in TeleMedicine Consultation

AUTHORIZATION AND CONSENT TO PARTICIPATE IN TELEMEDICINE CONSULTATION

The purpose of this form is to obtain your consent to participate in a telemedicine consultation with the following physician/s:
Name of Physician/s: _____

Purpose and Benefits. The purpose of this service is to use telemedicine to enable patients to still receive health services even while staying at home during the enhanced community quarantine, except for serious conditions, emergencies, or to avail of COVID-19-related health services as per standing protocols.

Nature of Telemedicine Consultation: During the telemedicine consultation:

- a) Details of you and/or the patient's medical history, examinations, x-rays, and tests will be collected and discussed with other health professionals through the use of interactive video, audio and telecommunications technology if needed.
- b) Physical examination of you or the patient may take place.
- c) Nonmedical technical personnel may be present in the telemedicine studio to aid in video transmission, if needed.
- d) Video, audio, and/or digital photo may be recorded during the telemedicine consultation visit.

Medical Information and Records. All existing laws regarding your access to medical information and copies of your medical records apply to this telemedicine consultation. Additionally, dissemination of any patient identifiable images or information from this telemedicine interaction to researchers or other entities shall not occur without your consent, unless authorized by existing law, policies and guidelines on privacy and data protection.

Confidentiality. Reasonable and appropriate efforts have been made to eliminate any confidentiality risks associated with the telemedicine consultation. Organizational, physical and technical security measures are in place to ensure that all information processed during the consultation will remain confidential and only authorized personnel will have access to such information on a need-to-know basis. All existing laws, policies and guidelines on privacy and data protection apply to information disclosed during this telemedicine consultation.

Potential Risks and Consequences. The telemedicine consultation will be similar to a routine medical office visit, except interactive video technology will allow you to communicate with a physician at a distance. At first you may find it difficult or uncomfortable to communicate using video images. The use of video technology to deliver healthcare and educational services is a new technology and may not be equivalent to direct patient to physician contact. As any medical procedure, there may be potential risks associated with the use of this technology. These risks may include, but may not be limited to:

- a. Information transmitted may not be sufficient to allow for a conclusive consultation by specialist. Following the telemedicine consultation, your physician may recommend a visit to a health facility for further evaluation.
- b. Delays in medical evaluation and treatment could occur due to deficiencies or failures of the equipment.
Security protocols could fail, causing a breach of privacy of my confidential medical information.
- c. A lack of access to complete medical records may result in errors in medical judgement.
- d. There is no guarantee that this tele-consultation will eliminate the need for me to see a specialist in person.

Rights. You may withhold or withdraw consent to the telemedicine consultation at any time without affecting your right of future care or treatment, or risking the loss or withdrawal of any program benefits to which you would otherwise be entitled. You have the option to consult with the physician in person if you travel to his or her location.

Financial Agreement. You and/or your insurance company will not be billed for this visit.

I have been advised of all the potential risks, consequences and benefits of telemedicine. The physician of this telemedicine consultation has discussed with me the information provided above. I have had an opportunity to ask questions about this information and all of my questions have been answered. I understand the written information provided above.
