

PRO Caraga Employees' Day: A Success!

On May 6, 2023, PhilHealth employees in the Caraga region celebrated their much-anticipated annual event – the PhilHealth Employees' Day. It was a day of fun and excitement for everyone as they held various activities like basketball, volleyball, table tennis, and some of the 'Laro ng Lahi' (traditional Filipino games).

This special day was not just about the fun and games but also about fostering camaraderie among employees. It presented a perfect opportunity for old friends to reconnect and for new ones to make acquaintances as they rallied together for their respective teams in the games. The teams formed especially for this event are the following: the Pink Panthers, the Team Ponkan, the Blue Jeans, and the Red-Flagged.

The PhilHealth Employees' Day was held at the Provincial Capitol Covered Court. The hosts for the said event, the Health Care Delivery Management Division (HCDMD) and the Management Services Division (MSD), utilized the whole covered court to maximize the time and ensure that all the games lined up were properly accommodated.

The day started with a competition for the best cheer and was subsequently followed by the basketball, volleyball, table tennis games, and Laro ng Lahi. One can see that the games were being held simultaneously. The excitement, energy, and competitiveness of the employees were palpable in the atmosphere, and despite the highly humid weather, the enthusiastic cheers were heard all over the venue.

The event emphasized the importance of work-life balance. It was the perfect time for the employees to show off their athletic skills, sportsmanship, and ability to work in a team. By participating in the activities, the employees not only demonstrated their love for sports but showed a willingness to take the necessary break to maintain their mental and physical well-being. As the sun began to set, everyone gathered for the awarding ceremony. The Pink Panther was awarded as the overall champion for this year's Employees' Day event. They were followed by the Blue Jeans, Team Ponkan, and then the Red-flagged.

It was a night of joy and laughter as winners and runner-ups in each game were awarded cash and goodies. The day ended with a renewed sense of friendship and camaraderie among employees at PhilHealth. The annual PhilHealth Employees Day was, without a doubt, a massive success. It brought everyone together and provided a much-needed break. It reminded everyone that it is not essential to work hard, but it is also vital to have fun and enjoy life once in a while. ###
